5 Access Files from Your Android Device from Anywhere

1 Choose FILES and select the remote computer which holds the files you want to access.

2 Select file(s) or folder(s).

3 Download them by tapping the button in the top right corner.

4 The files are saved on the SD card in the Download folder.

Why File Sharing with ISL AlwaysOn Is Good?

- You don't have to upload files to the cloud.

- All files stay on your computer.

- There is no shared space quota, the only limit is your disk space.
